

Chu-hi-cha (Insect Secret Tea) = Tea from Insect Poop

Summary: What is *Chu-hi-cha*?

When caterpillars eat leaves...

A pleasant aroma arises from the poop!

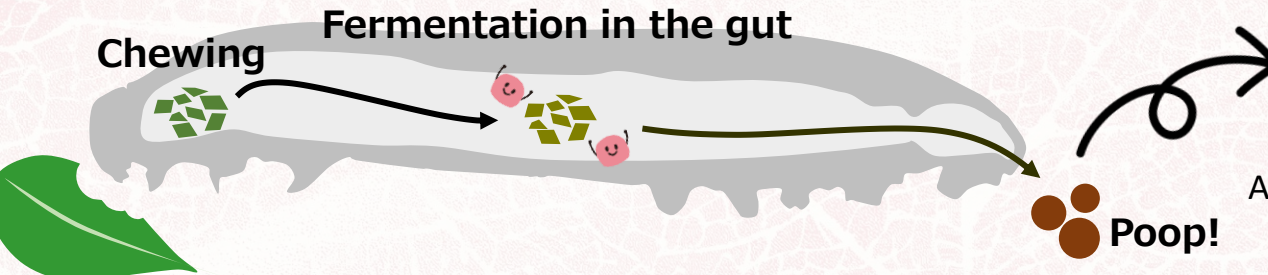

Simply pour hot water for a fragrant aroma and rich fermentation!

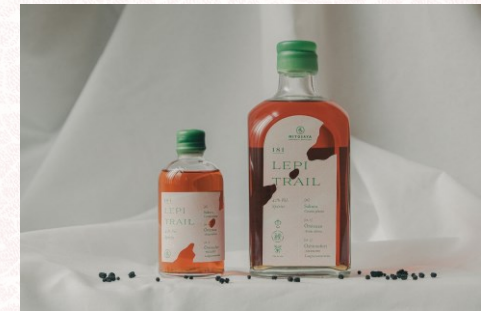

Plant and insect combinations create diverse aromas and flavors.

Our value proposition
= A completely new use and expression of plants.

Chewing **Fermentation in the gut**

Poop!

A new distilled spirit made from *Chu-hi-cha*.

Caterpillar digestion and fermentation are alike but distinct.

Insect Secret Tea = An irreplaceable ingredient in terms of aroma and flavor.

Its qualities earned a partnership with Michelin three-stars.
