

MZT RASEN PROJECT

World Fastest DNA Analysis Genome Analysis Accelerator

Our Vision

Accelerating Genomic Breakthroughs for a Better World

Our Mission

To revolutionize genome analysis with proprietary hardware, delivering faster, accessible, and energy-efficient solutions for medicine, food, and industry

Partnership & Investment Opportunities

We are seeking global investment and strategic partnerships to drive the development and commercialization of our innovative hardware solutions for the genome industry

Our Objective

Launch the first product by 2026

Our Promise

We promise to deliver transformative genomic solutions that shape the future of humanity with reliability and Innovation
